Easy Organizer Suite[™] easyFabrics Organizer[™] Module

How to Work With the Fabrics System Table

Welcome to the **easyFabrics Organizer™** Lessons series. As you follow through each lesson, you will learn new and exciting aspects of the **easyFabrics Organizer™** Module and by the end of the series you will be an expert!

Manufacturers have Lines, and Lines have fabrics. You can view all of the fabrics in the system. You can add new fabrics, change the existing values of fabrics, or delete the fabrics.

Opening the Fabrics System Table

1. To begin, open **Easy Organizer Suite**[™] and select the **easyFabrics Organizer**[™] Module from the Module Selecter.

2. If you are in another module, select Modules → easyFabrics Organizer[™] from the menu, or you can click on the **easyFabrics Organizer[™]** icon in the toolbar.

Sorting Fabrics

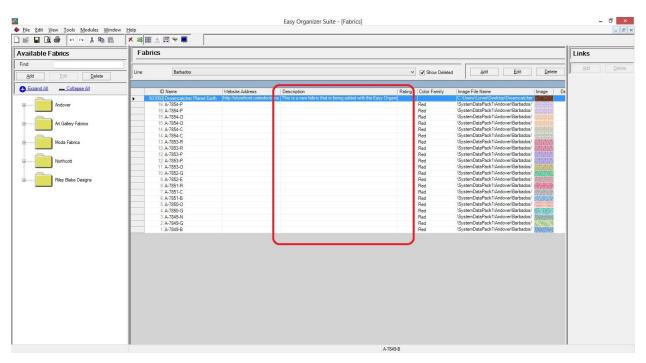

23. In any chart, including the Fabrics System Table Chart, you can sort the grid by clicking on the column heading. So, if you want to sort the grid by the Name column in ascending order, click on the Name column heading. If you click it again, the program will sort the grid in descending order.

Resizing Columns

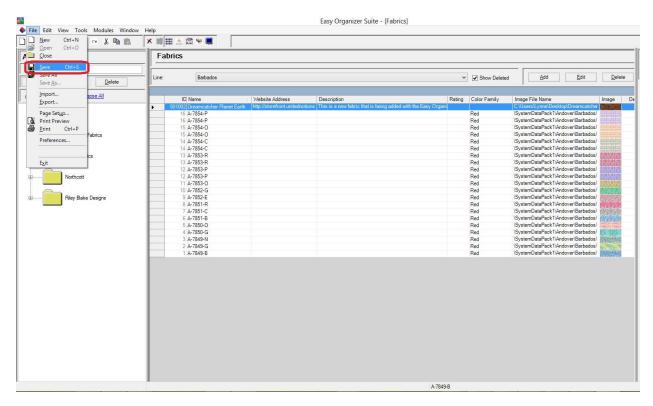

24. To resize the columns of a grid, hover the mouse over end of the column you would like to resize until the mouse becomes a resize cursor. Then click and drag the column either to the left to make the column smaller or to the right to make the column larger. When the column is the size you want, let go of the mouse button to accept the new size of the column.

When you save the changes, the program will remember the size you have made the columns.

Save

25. Be sure to save the Fabrics System Table Chart. Select File → Save or click on the Save icon in the toolbar.

Congratulations! You have finished the How to Work With the Fabrics System Table.
