Easy Organizer Suite™ Threads Organizer™ Module Pack easythreads™ Module

Lesson 13 - How to Work With the Brands System Table

Welcome to the **easythreads**[™] Lessons series. As you follow through each lesson, you will learn new and exciting aspects of the **easythreads**[™] Module and by the end of the series you will be an expert! Each lesson will build on the last, so be sure to go through the series in order. Our twelfth lesson will show you how to add, edit and delete system brands.

The brands that are in the easythreads database can have one or more threads. You can view all of the brands in the system. This feature is only available in the Pro Edition. You can add new brands, change the existing values, or delete the brands.

Brands System Table

 To begin, open Easy Organizer Suite[™] and select the easythreads[™] Module. If you are not already in the easythreads[™] Module, then select Modules → Threads Organizer → easythreads from the menu, or you can click on the easythreads[™] icon in the toolbar.

18. To resize the columns of a grid, hover the mouse over end of the column you would like to resize until the mouse becomes a resize cursor. Then click and drag the column either to the left to make the column smaller or to the right to make the column larger. When the column is the size you want, let go of the mouse button to accept the new size of the column.

When you save the changes, the program will remember the size you have made the columns.
